Laughlin is a census-designated place in Nevada United States. It is not an incorporated place like a municipality. This place is governed by the Clark County Board of Commissioners. It is headed by a Town Manager (not of a Mayor). When talking about casinos and resorts, this place is the third most visited place in the state. It comes after Las Vegas and Reno. It is also one of the top five destinations of American Recreational Vehicle enthusiasts.

Laughlin got its name from the founder of Riverside Resort and Casino, Don Laughlin. The name Laughlin was chosen by the post office after a tight choice of the United States Postal Service. The place is known as a more family friendly venue to all the people. It also gives emphasis on the outdoor and family activities which are greatly opposing to the glitz and entertainment found in Las Vegas and Reno.
